

Indian National Public School

Inclusion Policy

Inclusion is not just about including children with different abilities. It is about embracing the idea that diversity is the reality and therefore each child is a unique learner. Indian National Public School makes sure that all learners including children with special needs access school along with other children and receive what they need to succeed as a learner.

The infrastructure is conducive to the need of specially-abled children. The teaching methodology is also modified as per the need and supporting the abilities of a learner. Teachers, staff, and students are advised to behave and respond appropriately. Their attitude is supporting and encouraging towards specially-abled students.
